ref. EE2022183656 / TE2022202460
RECEPTIONIST

<< End of list >>

Explanatory notes on Employment History:

1. References listed under the date of engagement or termination are the reference codes of forms processed by Jobsplus. The reference code has the following interpretation: (a) the first two letters of such a reference indicates the type of form, (b) the first four digits indicate the year of process and (b) the remaining digits are a sequence number.

2. Kindly check whether any: (i) engagement references starting with a 'Y', 'EP' or 'EL'; and/or (ii) termination references starting with a 'Z', 'TP' or 'TL'. If yes, then this means that such employment records are still open or in a provisional state, in the sense that the respective employer did not provide Jobsplus with such form(s). Such references are automatically generated by Jobsplus system for missing forms and/or issued employment licenses. Kindly ask your employer to provide Jobsplus with this missing form(s) so that your employment history is properly updated.

3. In case of any queries kindly send an e-mail to hriu.jobsplus@gov.mt
